First payment was made for 140 industrial deaths in 1987. Fifteen of the 140 cases were pensioners who died from causes related to their compensable injuries or diseases. The 140 fatalities first paid in 1987 cannot be compared to the 190 fatalities reported in 1987 because some of the fatalities first paid in 1987 occurred and were reported in a prior year. The table on page 5 gives a breakdown of the 190 reported fatalities.

---

[1] Fatalities that occurred in the year and were reported to the Board by 1 March of the following year.

During the year, 126,479 claims were paid for the first time. Of those:

59,610 were for medical aid only;
64,073 were for temporary total disability;
2,656 were for permanent disability;
140 were for fatal accidents.

The Board set aside $3,590,773 in pension reserves to pay for hearing loss claims allowed in the year.

COSTS

Compensation costs totalled $312,612,609 in 1987 compared with $266,981,223 in 1986. The figures include actual payments made for medical aid and wage loss, as well as a reserve set aside for present and future payments of permanent disability and dependants' pensions awarded in 1987. The expense figures shown in Schedule 1 of the Finance and Statistics section show pension payments made during the year, not reserves set aside.

*** Due to rounding, totals may not balance.

**** The total cost of $312,612,609 differs from the total claims expense figure in Schedule 1: the former includes pension reserves set aside, the latter includes pension payments made. The claims costs of $312,612,609 are shown by subclass in Table A-2 of this report.

NOTE

There were 8 deaths that occurred in 1986 but were not included in last year's table - they were reported to the Board after 1 March 1987.

---

1 Disallowed claims are those that fall within the scope of the Act but are not acceptable, usually because they are not work related.

2 Claims awaiting application typically involve cases where the deceased's relatives elect to sue a third party rather than to claim compensation.

These figures represent the actual number of days lost by injured workers (wage-loss cases). Time charges for permanent disability and fatal cases are not included.

[1] The method of calculating average weekly wages was modified in 1986. The change is relatively small, but the 1986 and 1987 average weekly wages should not be compared to the average weekly wages from earlier annual reports. Average weekly wages for prior years on the new basis are available on request from Statistical Services.

[2] This category is "overexertion" and "bodily motion" accidents that usually result in strain injuries.

[1] A claim can be reopened in the same year it is first paid; a claim can be reopened more than once in the same year.

[2] These figures are work days compensated in 1987 on all claims, not just claims reopened or first paid in 1987.

[3] Claims reopened with one day or no days of wage loss (such reopenings are typically for the purpose of adjusting the compensation that has been paid) are not counted as reopenings in this table. A claim reopened more than once in the same month is only counted as one reopening.
